Latest version of the Competition Schedule is V 11 (printed 14 May 2012). The schedule can be subject of change, due to TV requirements.

3.2.1. Qualification World Games (compound)

For the compound archers this European Championship is of great importance, because in addition to European medals, tickets can be obtained for participation at the World Games of 2013 in Cali – Colombia. The World Games will be organized every 4 years for sports which are not at the Olympic programme, but do have a relation with the International Olympic Committee. The best 3 men and women at this European Championship will be entitled to take part at the World Games of next year. For further information about the World Games, sports and organization, see: <http://www.theworldgames.org/>

3.3 Practice

Official Practice will be on Monday May 21st in the Olympic Stadium (3 hours for each division), shooting in AB-CD format. Shooting direction is East.

Recurve Women & Compound Men, 09:00 to 12:00

Recurve Men & Compound Women, 14:00 to 17:00

Qualification Round will have a practice of 30 minutes.

Target assignments will be available in the pigeon holes on Monday morning, May 21st.

Practice field located on walking distance from the Olympic Stadium, will be available from Sunday 20th up till and including Friday 25th May from 09.00 to 17.00.

3.4. Equipment Inspection

Equipment inspection will be run following the program of the official practice. Each team will be called (in alphabetical order) and invited by the DOS to the dedicated place for the Equipment inspection in the competition field. All team members are required to wear their team uniforms. Also all spare equipment must be brought to the equipment inspection.

During the equipment inspection, we would like each Team Manager or Coach to ensure that their athlete's names have the right spelling.

The athlete's number will be given before the warm up on the day of the competition (it will be distributed in the pigeon holes). When receiving the registration numbers, we would like each Team Captain to double check that each athlete has the correct athlete number.

The athlete's number must be worn on the athlete's quiver or the thigh facing the waiting line. During the equipment inspection, instructions on the use of the scoring handheld terminals will be carried out if requested. We ask all the athletes and coaches to follow the OC volunteers and Judges' instructions in order to proceed with as few delays and as organised as possible.

The Environment

We ask you to instruct your athletes to use the litter bins located in different areas of the archery venue. Please help us to keep the venue as clean as possible.

Water

To help with environmental issues we would like to enforce the water bottle deposit system. With your accreditation you receive one bottle of water at the distribution point. You will only receive a new bottle of water by returning the empty bottle. If your athletes lose the empty bottle, please contact the O.C.

Abiding by this simple rule, we actively help to run the competition smoothly and in addition help to avoid useless waste.

Non-smoking

This is a non-smoking event for the practice and official competition areas.

You can smoke at areas indicated close to the exit of the venue.

In the Netherlands, smoking inside public buildings is no longer allowed, please use the designated areas outside.

3.5. Qualification Round (22nd of May 2012). Information on scoring

Qualification Rounds (as well recurve as compound), shooting 4 archers per target AB – CD format, see schedule. Recurve 70m Round (72 arrows), Compound 50m Round (72 arrows).

The scoring system in use is Damage Hand Held Terminal in conjunction with IANSEO software.

The scoring in the Qualification Rounds will be done by the archers. One archer will write down the score on the paper score sheet and another archer will score on a terminal. The third archer verifies that the correct scores are entered. The use of the Hand Held Terminal is mandatory. During the official practise your archers will be asked to test the terminals and see if they understand the correct working. Terminals will be used during the Qualification and Elimination Rounds, but not in the Finals.

Please instruct your athletes to sign the score sheets before handing them back after each round, including total score, 10's and X's. Sample of score sheets will be handed out at the Team Managers meeting.

3.6. Individual Elimination Round & Mixed Team Round (23rd and 24th of May 2012)

Each division will have three ends of practice in the competition targets when starting the first elimination of the day. If archers would like to have more arrows for warming up, the practice field will be opened 45 minutes before the first match of the morning.

Matches will be run as fast as possible. Therefore the times indicated in the schedule are just a reference. Please be aware of that and follow the competition to be prepared when the match of your archer could be scheduled. Only the start of the morning session and the start of the afternoon session will be respected as indicated in the competition schedule V 11, printed 14th May 2012.

All divisions will have 1/48 (104 archers in each category will proceed from the qualification to the elimination phase) and 1/24 matches on the 23rd of May and 1/16, 1/8, 1/4 and 1/2 finals on the 24th of May 08.30 – 13.00). Top 8 individual archers will place themselves directly to the 1/16 finals. Archers from 9th to 104th positions will shoot the 1/48 and 1/24 eliminations.

Consequently, the top 8 will join the winners of the 1/24 eliminations to complete the 1/16 elimination. There will be no alternating shooting. No faces will be changed as default and matches will start as soon as the field is ready. We will respect starting time at the beginning to the session and then run the competition as it goes. Therefore some matches could start sooner than the time indicated in the schedule. Please be aware and prepared for this. Byes are allowed. In case of a bye, archers will be allowed to shoot in their own target, but no score will be recorded or allowed to be displayed and will be limited to three arrows per end and maximum of THREE sets for recurve and FIVE ends for compound.

Mixed Team Elimination will start at 1/8 finals, May 23rd, no alternate shooting and it will be run until the Bronze Medal match. Gold Medal matches will take place on Saturday 26th of May.

One selected match of each phase will be moved in the "field of finals" close to the grand stand and will be shown on the big screen. The list of selected matches will be communicated the day before and will be distributed to all delegations.

3.6.1 Recurve.

The set system will be used for the elimination in recurve up to and including the semi-finals, per class and division.

The elimination round in which the top 104 athletes are seeded according their positions in the qualification round (see match play chart). They shoot a series of matches in groups, each match consisting of the best of 5 sets of 3 arrows.

3.6.2. Compound.

The compound match round will be used for the elimination in compound up to and including the semi-finals, per class and division.

The elimination round in which the top 104 athletes are seeded according their positions in the 50m qualification round (see match play chart). They shoot a series of matches in groups, all matches consisting of 5 ends of 3 arrows.

Shoot off in individual elimination (Recurve & Compound) is just one arrow closest to the centre (40 seconds of time).

3.7. Team Eliminations (24th of May 2012)

For the team matches, there will be again three ends of practice in competition targets. For more practice please use the practice field.

Team elimination round on 24 May start at 13.45, will start with the 1/8 final up to the bronze medal matches per class and division. There will be no alternate shooting.

Byes are allowed. In case of a bye, teams will be allowed to shoot on their own target, but no score will be recorded or allowed to be displayed. The teams will be limited to shoot 2 arrows per archer, as with the individual byes.

3.7.1 Recurve Team

4 ends of 6 arrows, 2 arrows per archer (70m, cumulative scoring)

3.7.2 Compound Team

4 ends of 6 arrows, 2 arrows per archer (50m, cumulative scoring)

3.8. Olympic Continental Qualifying Tournament (25th of May 09.00 – 18.00).

Where and when?

Europe : European Championships Amsterdam, 21-26 May 2012

How many places can be obtained in the continental qualifiers?

For Europe, 3 NOCs can obtain qualifications for the continent. The maximum number of places per NOC and gender is one. Thus, a country can obtain one quatum for men and one quatum for women, but not 2 men's or 2 women's places.

Which NOCs/Member Associations are eligible to compete in the Continental Qualifying Tournament?

All member associations of World Archery in good standing that have not yet obtained a place in that gender, can compete in the qualifying event for that region. Only NOCs that are member of that region (in this case Europe) can compete for the places. If the qualifying event is part of another event, such as a continental championship, then a separate elimination and finals round is required for the Olympic qualification tournament. In the practice this means that the following countries are ELIGIBLE to compete in the European Qualifier:

Europe (European Championships 21-26 May 2012 Amsterdam, Netherlands).

Yellow marked: NOT eligible to compete.

What is the format of the qualification round?

After the qualification round of the EC, a separate ranking will be composed in order to have the match play chart for the CQT.
