

Dear,

The **Belgian Archery Academy** is the umbrella organisation governing archery on a national level. It aims, apart from organising lectures, seminar and workshops, to support the local, regional and national structures put in place for the promotion of archery

InterACTs, an initiative of the Belgian Archery Academy, was founded in order to cater for the **growing need of academic excellence** in the **archery community**. InterACTs **aims** to increase the knowledge of its participants and community **by lectures and hands-on workshops** given by experts in their respective fields. This bi-annual event is open to everyone interested in the sport of archery **from the intermediate to the expert level**. It is a must for trainers and coaches eager to **improve their teaching/training skills** as well as their **overall specific scientific background**. Nonetheless it is **open to the public** interested in getting to know the drivers in the sport.

The **first edition** features **international and national** speakers discussing **basic to expert level** archery-related scientific aspects. Our main speaker, **USA archery head coach Kisik Lee**, will provide the **first ever Kisik Lee international archery coach: level 1 course** conducted on the European continent.

We kindly invite you to participate in the promotion of this unique international event that will be held **november 20-24, 2013 in Brussels, Belgium**.

Additional Information and the complete program can be found at our website:

<http://interacts.be/index.html>,

and our social media pages: www.facebook.com/interactsbelgium, <https://twitter.com/InterActsBE>, www.linkedin.com/company/3305547?trk=tyah.

Questions can always be directed to the administrations office via ecs@interacts.be or tel. +32(0)468/11.57.05

See you at InterACTs!

Ben Van Bulck M.D.
President Belgian Archery Academy
Secretary-general Royal Belgian Archery
